.NET MAUI

Your Successes

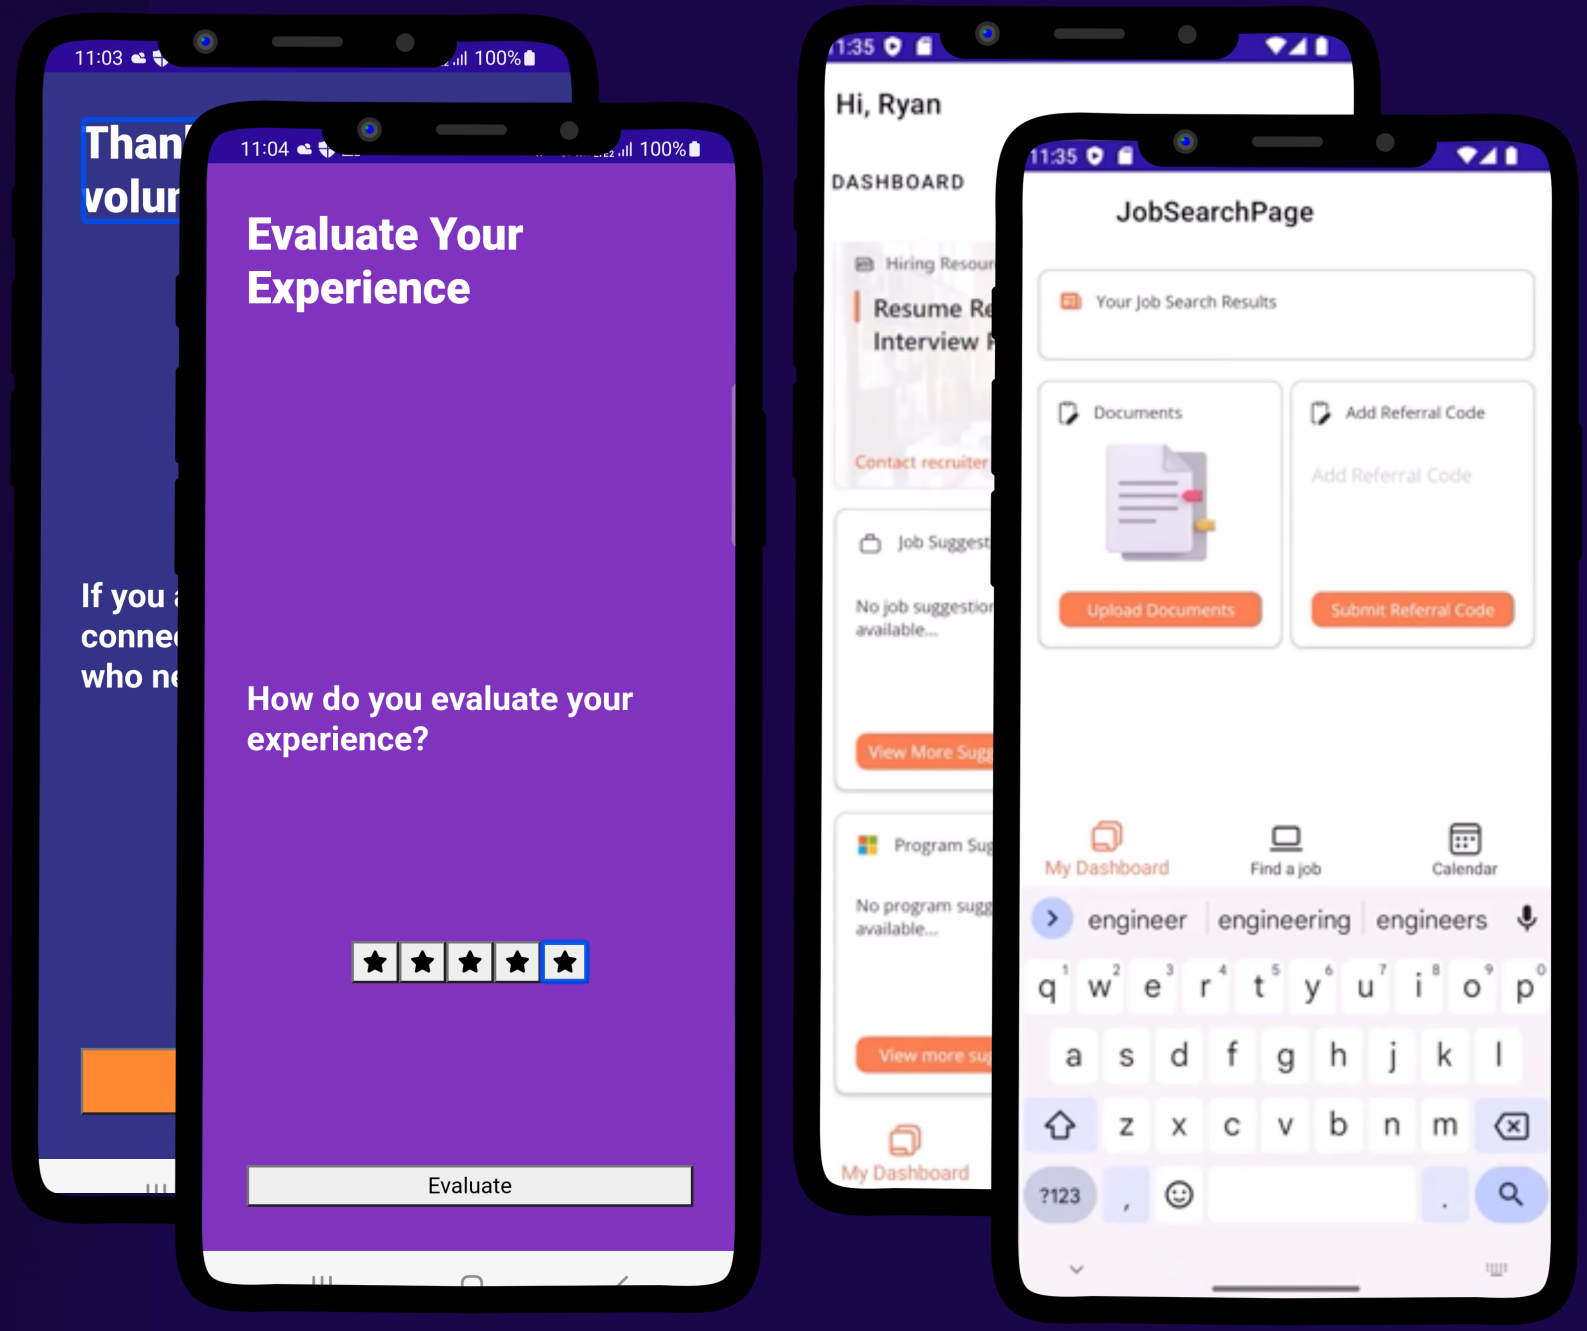

First Party Apps

Be My Guide

An application that connects people with partial or total loss of vision with nearby volunteers.

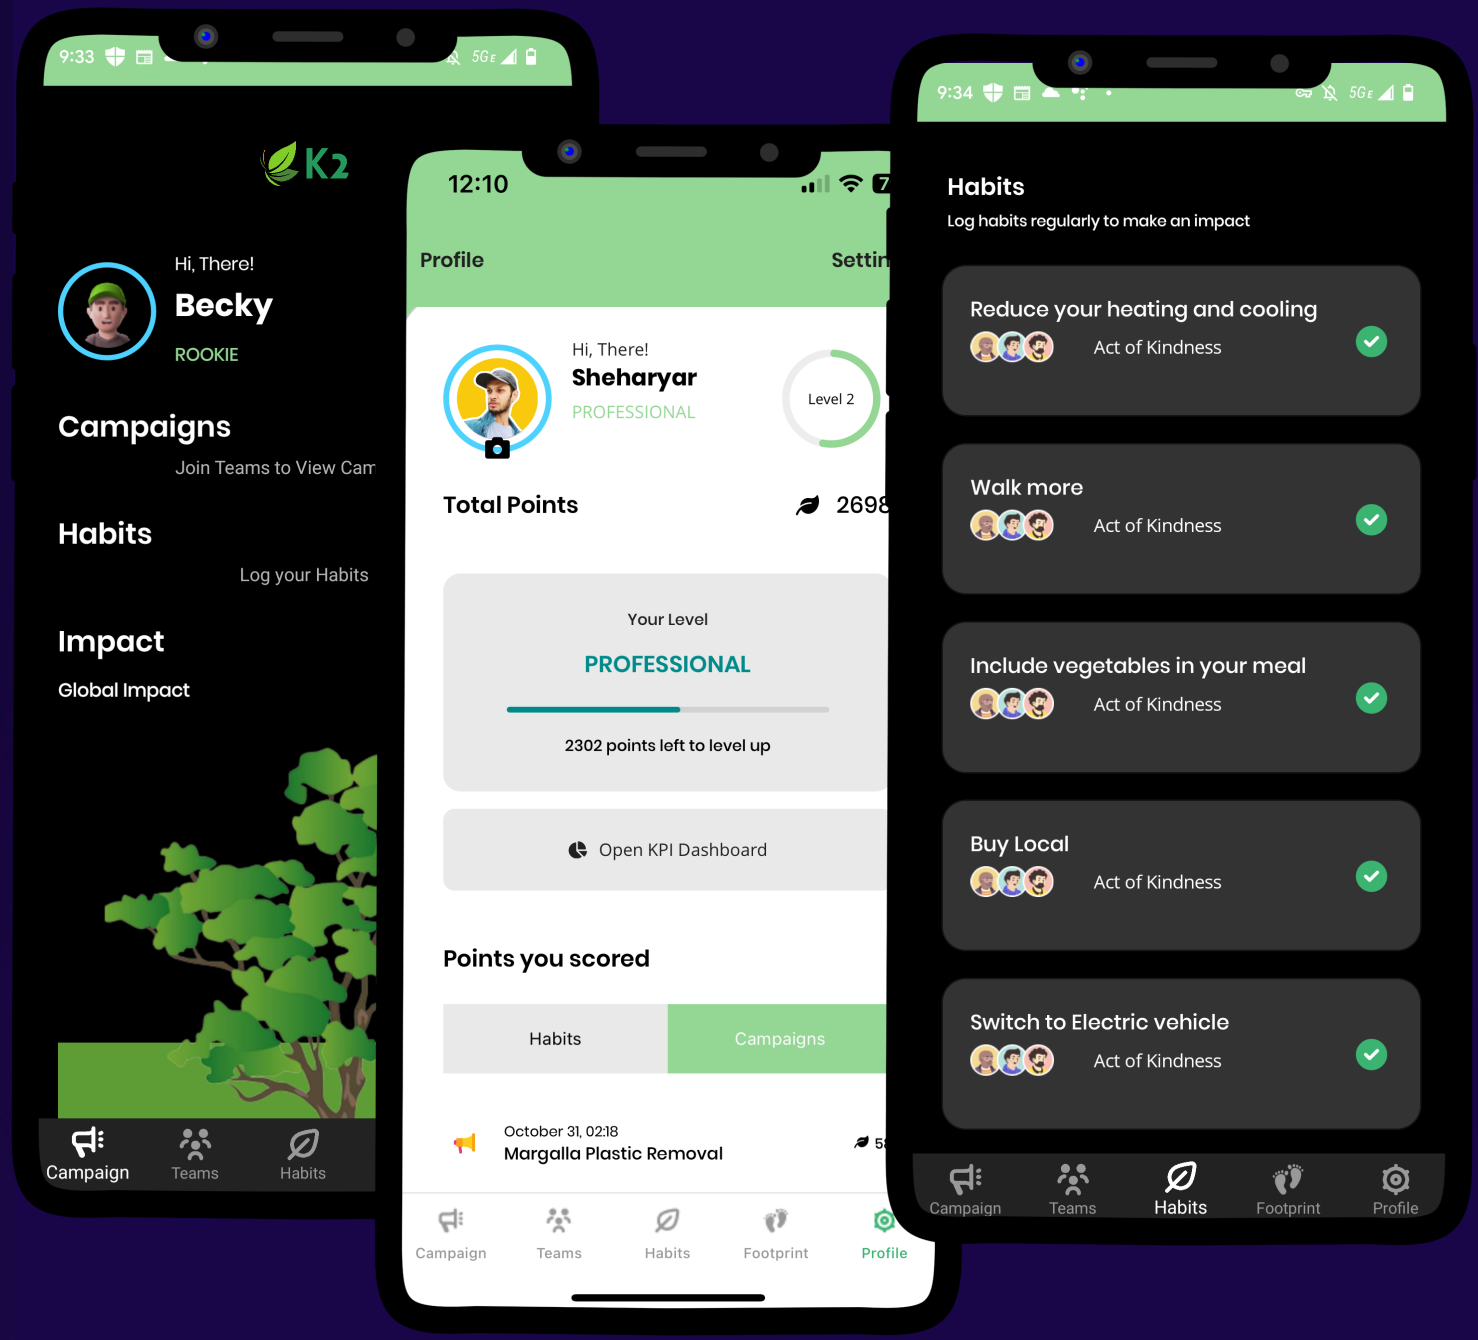

Hack the Hire

For recruiting and referrals of Black and Afro-Latinx talent for both students and professionals into Microsoft.

K2 | Klima Kampagne

K2 is developed to track climate contributions by individual and large teams/organizations. A campaign management tool to create teams, campaigns and custom habits. Earn points and calculate how much an individual emitted CO2 when taking flight from one city to another.

Logius

Your DigiD allows you to identify yourself when making arrangements on the internet, such as with the government, educational institutes, healthcare institutions or your pension fund.

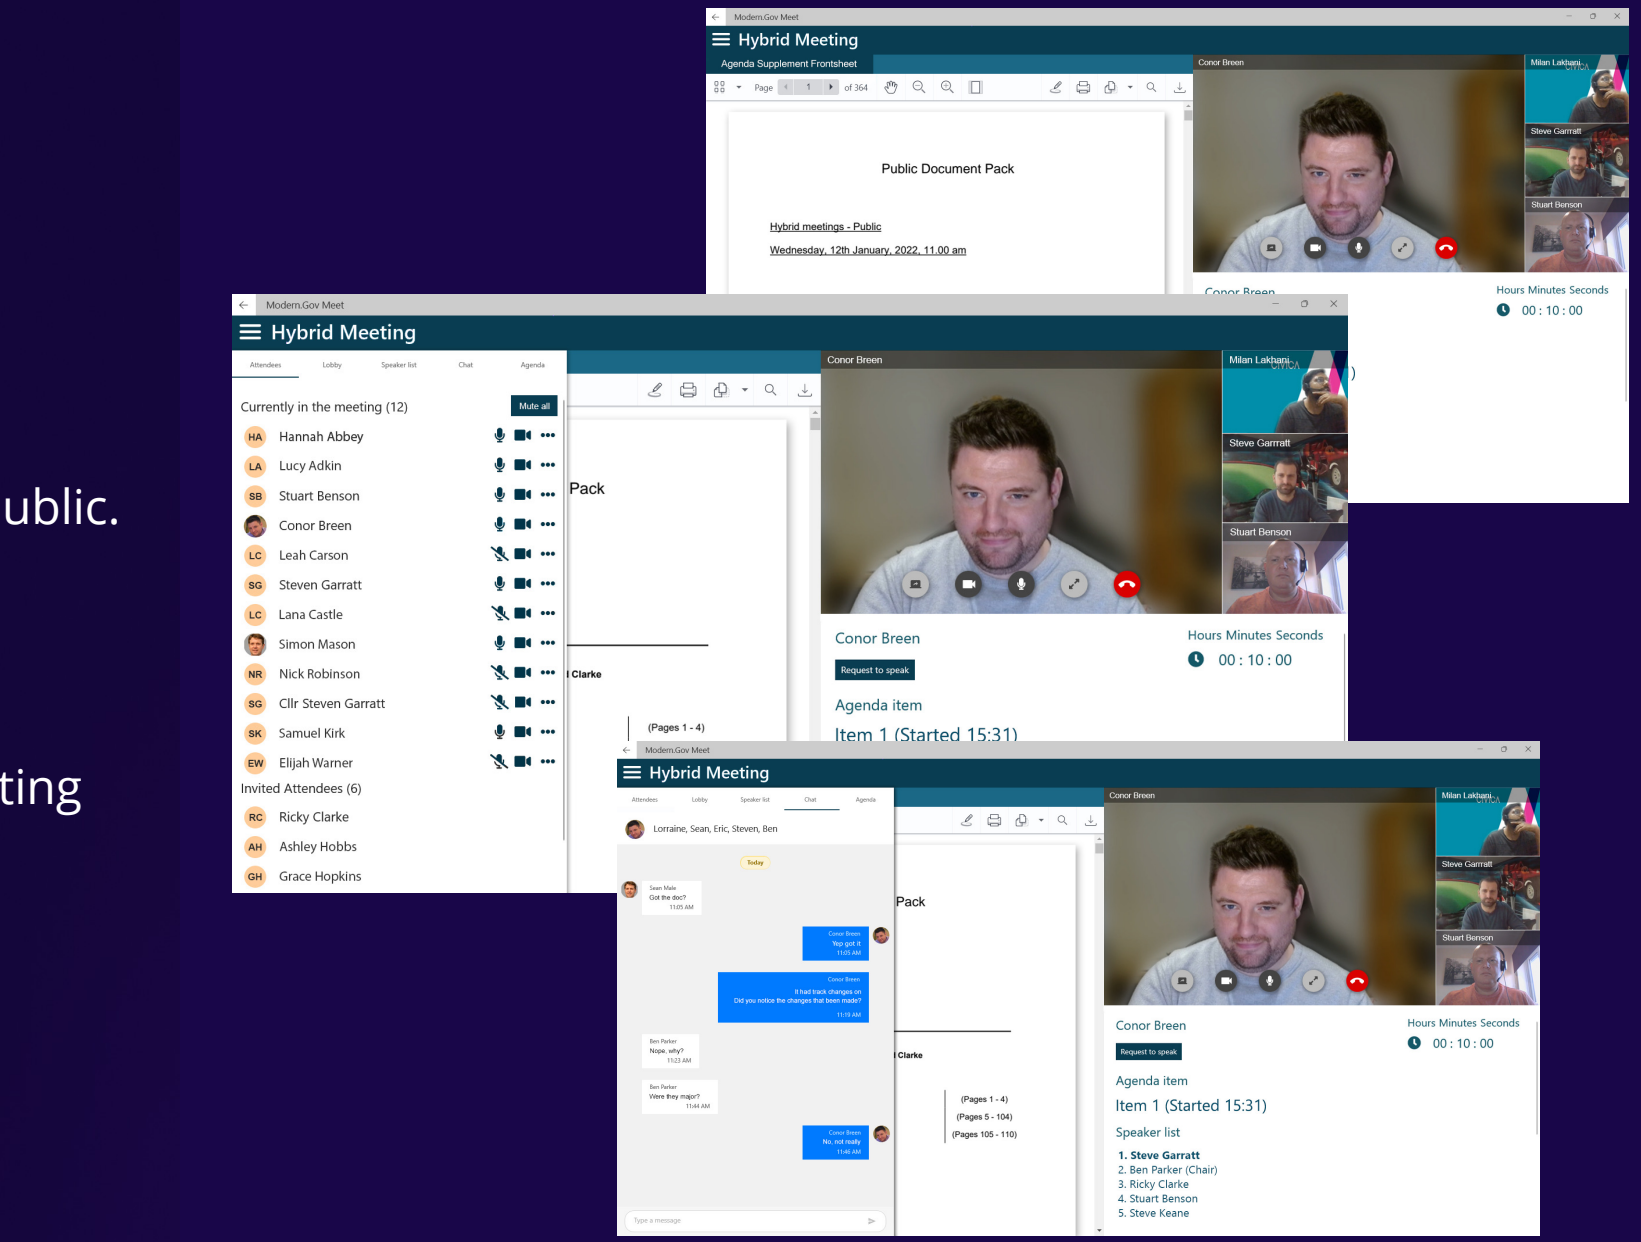

“The inclusion in .NET MAUI of advancements in Windows app development towards WinUI3 and the Windows App SDK, combined with the new WebView2 control has allowed the combined web and native experience in some of our applications to have a truly consistent cross-platform experience.”

Civica

Modern.gov by Civica

A paperless meeting app for Councilors, Officers, and the Public.

- Document management
- Voting
- Video conferencing, webcasting
- Virtual meeting lobby
- Call moderation

“The new handler architecture, combined with the simplified single-project structure, and improvements around compilation, startup and raw performance in .NET 6.0 (and again now with .NET 7.0) have helped not just to improve our apps startup time and performance, but greatly increase developer productivity with less time wasted.”

Civica

“The new handler architecture really opens up access to the native components with minimal overhead in terms of memory allocations and view hierarchy (compared with custom renderers). In our experience we've found that this even allows us to implement workarounds for issues in .NET MAUI itself whilst we await a fix, which is extremely powerful.”

Civica

RELEASED

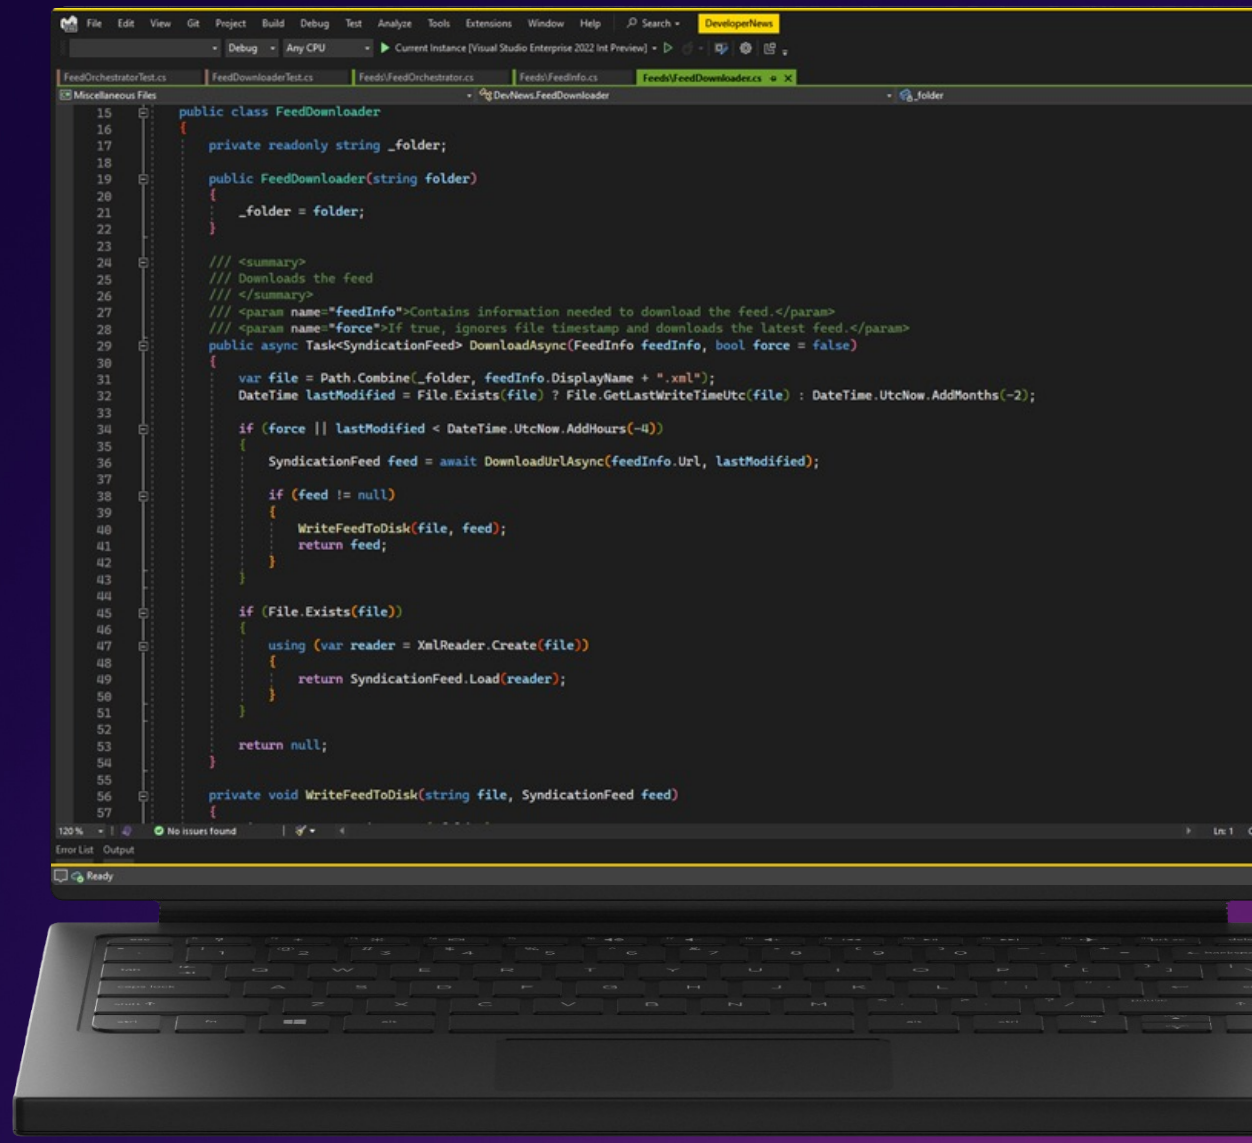

Visual Studio 2022 v17.4

Modern development for .NET 7 using WSL2

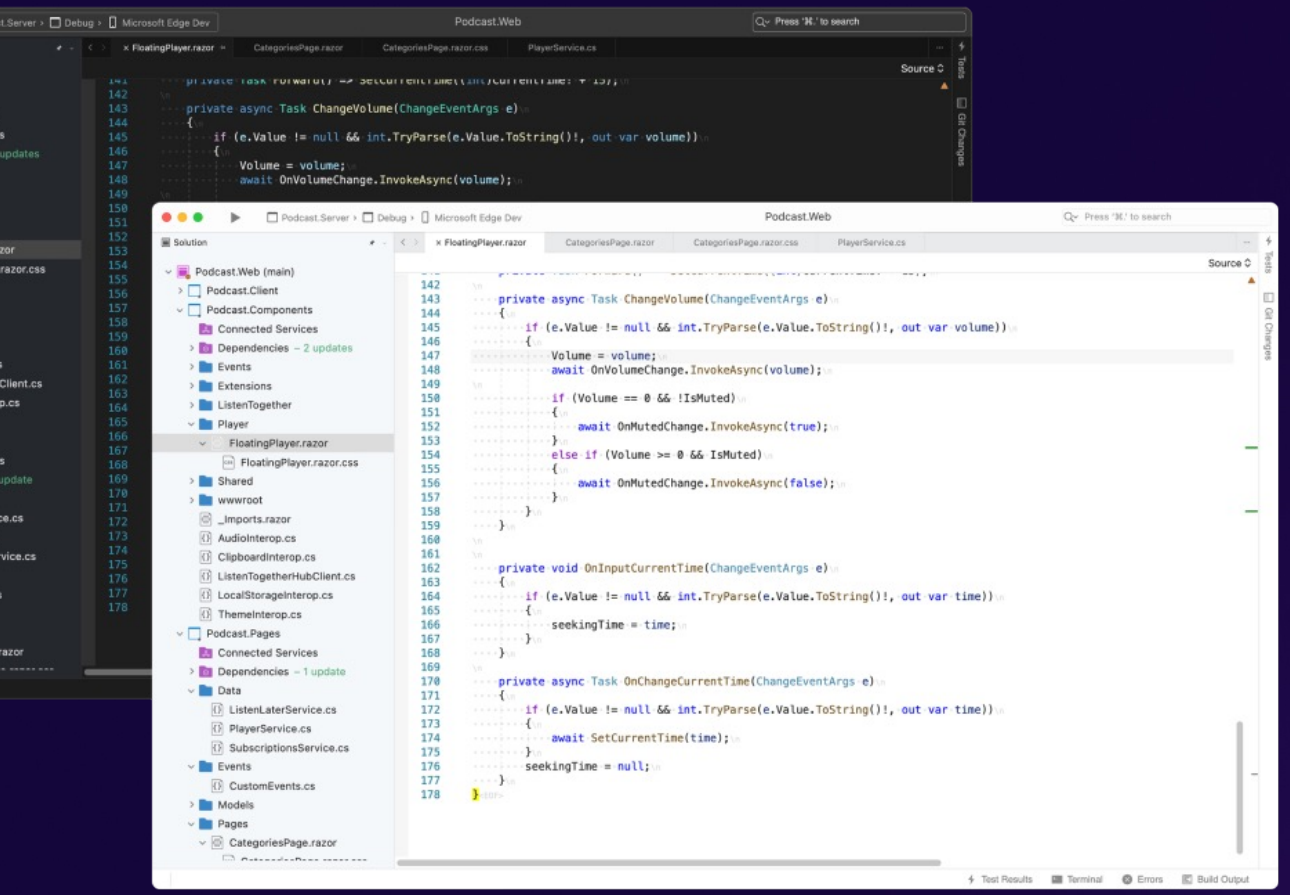

Code faster than ever before with Hot Reload

64-bit Performance, scale for any size project

visualstudio.com/download

RELEASED

Visual Studio 2022 for Mac v17.4

Develop .NET 7 apps for web, mobile, desktop, and more

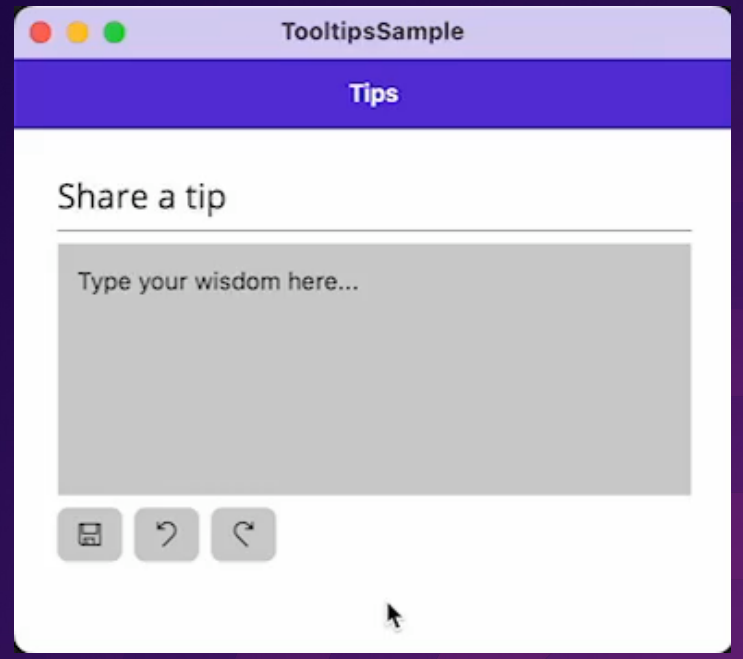

GA Support for developing .NET MAUI apps

Runs natively on M1 Macs

Tooltips

```
<HorizontalStackLayout Spacing="8">
    <Button Text="{x:Static icons:FabIconFont.Save}"
            ToolTipProperties.Text="Save"
            FontFamily="FabricIcon"/>
    <Button Text="{x:Static icons:FabIconFont.Undo}"
            ToolTipProperties.Text="Undo"
            FontFamily="FabricIcon"/>
    <Button Text="{x:Static icons:FabIconFont.Redo}"
            ToolTipProperties.Text="Redo"
            FontFamily="FabricIcon"/>
</HorizontalStackLayout>
```

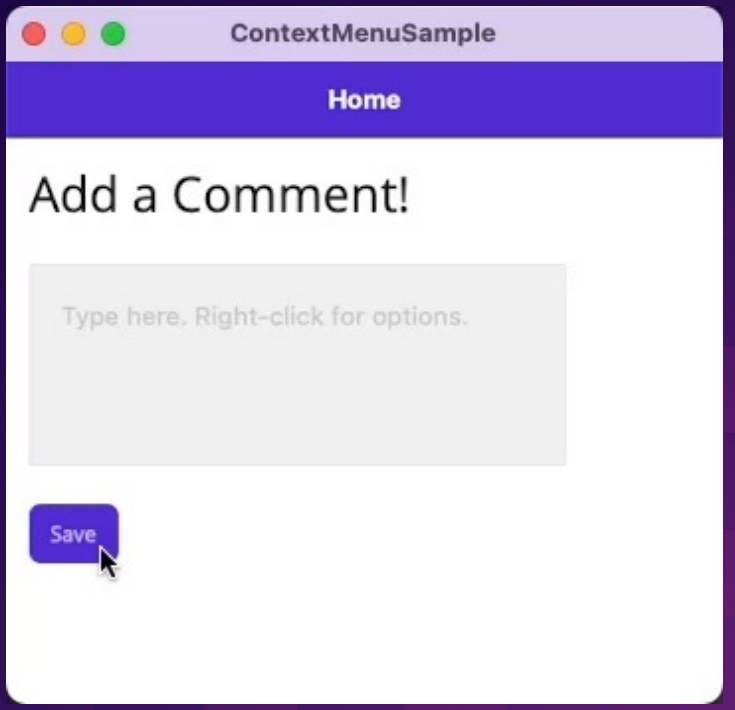

Pointer Hover

```
<Style TargetType="Button">
  <Setter Property"FontSize" Value="18"/>
  <Setter Property="VisualStateManager.VisualStateGroups">
    <VisualStateGroupList>
      <VisualStateGroup x:Name="CommonStates">
        <VisualState x:Name="Normal">
          <VisualState.Setters>
            <Setter Property="Background" Value="{StaticResource Gray200}"/>
            <Setter Property="TextColor" Value="{StaticResource Gray950}"/>
          </VisualState.Setters>
        </VisualState>
        <VisualState x:Name="PointerOver">
         <VisualState.Setters>
           <Setter Property="TextColor" Value="{StaticResource White}" />
           <Setter Property="Background" Value="{StaticResource Primary}" />
         </VisualState.Setters>
       </VisualState>
     </VisualStateGroup>
   </VisualStateGroupList>
 </Setter>
</Style>
```

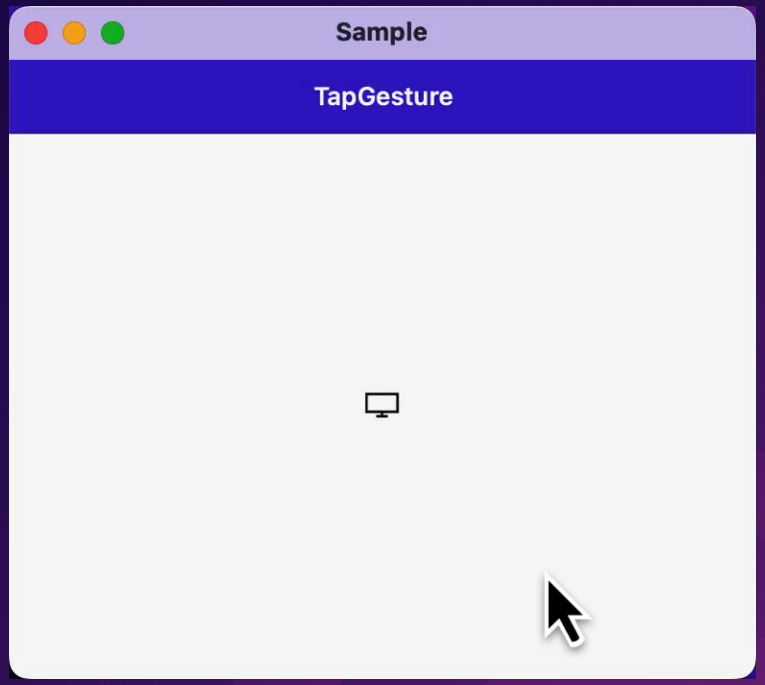

Context Menu

```
<Editor>
    <FlyoutBase.ContextFlyout>
        <MenuFlyout>
            <MenuFlyoutItem Text="Increase font"
                Clicked="OnIncrease"/>
            <MenuFlyoutItem Text="Decrease font"
                Clicked="OnDecrease"/>
            <MenuFlyoutItem Text="Clear"
                Clicked="OnClear"/>
        </MenuFlyout>
    </FlyoutBase.ContextFlyout>
</Editor>
```

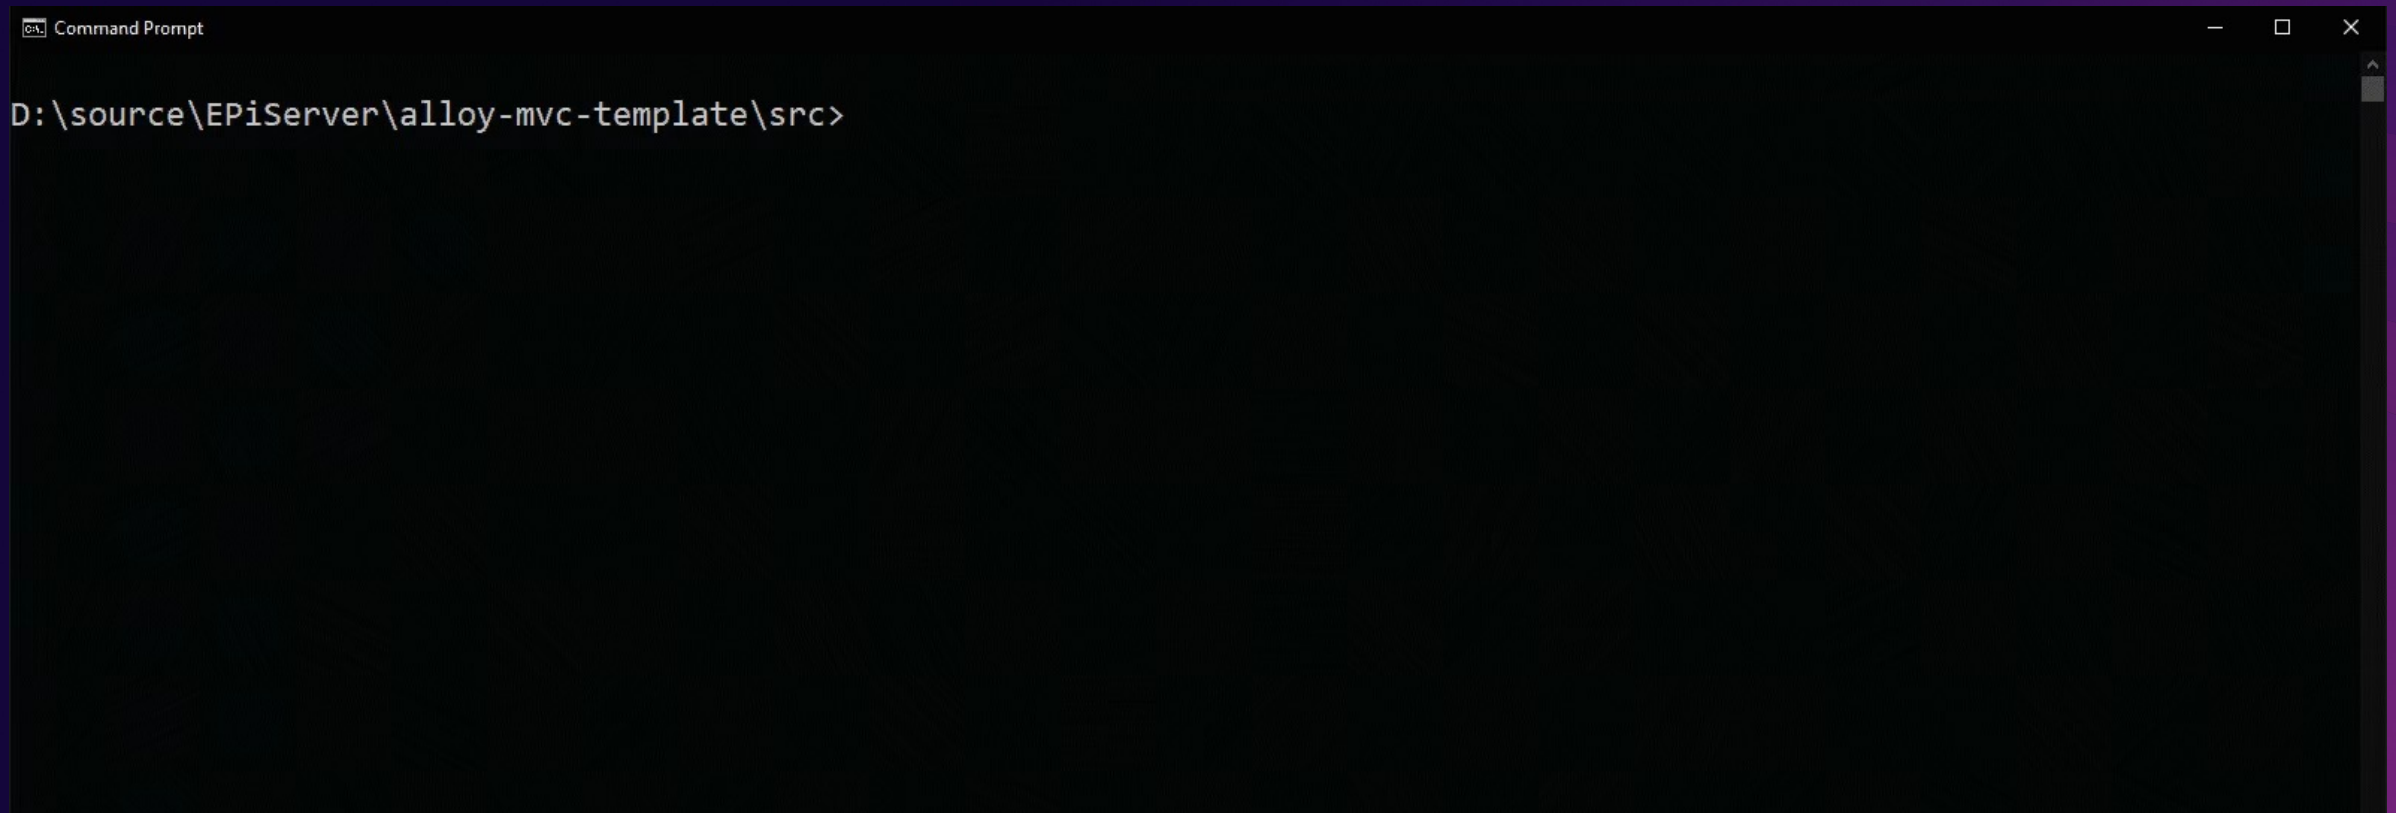

Right-Click

```
<Editor.GestureRecognizers>
    <TapGestureRecognizer Buttons="Primary"
                          NumberOfTapsRequired="2"
                          Tapped="Primary_Tapped"/>
    <TapGestureRecognizer Buttons="Secondary"
                          Tapped="Secondary_Tapped"/>
</Editor.GestureRecognizers>
```

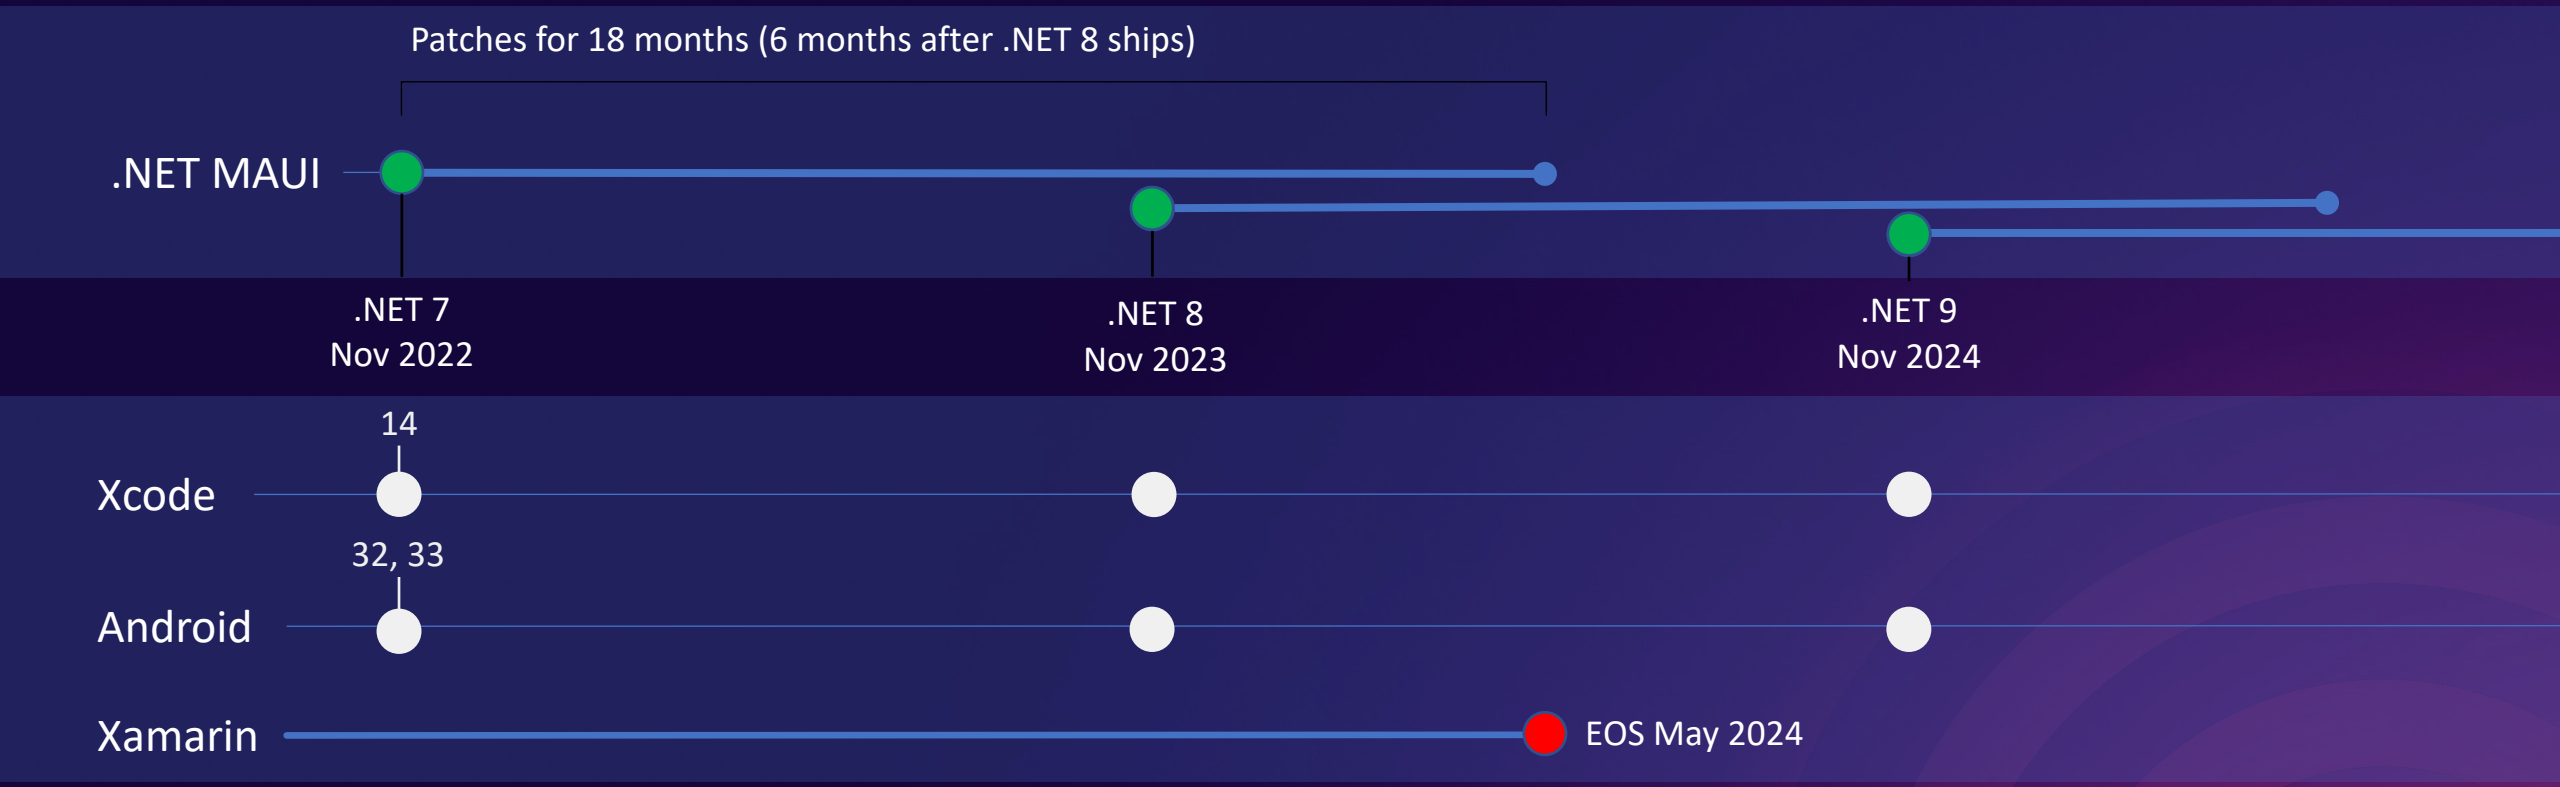

Modernizing to .NET MAUI from Xamarin.Forms

- Not a complete rewrite of your application – just an upgrade
- Join Sweeky Satpathy tomorrow at 17:00 PST for all the details! ⬆️
- Upgrade Assistant support in development – try it today and send us your feedback

Release schedule, support & patching

- A major version of .NET MAUI will ship with .NET going forward (.NET 7, .NET 8, etc.)
- .NET MAUI is an optional workload with external dependencies (such as Xcode & Android SDK tools)
- A major version of .NET MAUI will receive patches for 6 months after a successor (major version) ships
- Xamarin SDKs will receive support until May 2024

Learn More: Day 1

13:30 - 14:00 PST | **What's new in .NET MAUI and Desktop Apps |** Shane Neuville

14:00 - 14:30 PST | **Performance Improvements in .NET MAUI (.NET 7 edition) |** Jonathan Peppers

14:30 - 15:00 PST | **Create native desktop & mobile apps using web skills in Blazor Hybrid |** Eilon Lipton, James Montemagno

18:30 - 19:00 PST | **Build amazing cross-platform UI for .NET with Avalonia UI! |** Mike James

20:00 - 20:30 PST | **Extending apps to mobile and desktop with .NET MAUI and Oqtane |** Shaun Walker

Learn More: Day 2 & 3

Day 2 | Wednesday, November 9

17:00 - 17:30 PST | **Upgrading Xamarin apps to .NET MAUI** | Sweekriti Satpathy

Day 3 | Thursday, November 10

00:00 - 00:30 PST | **Tips and tricks on platform-code implementation in .NET MAUI |** Luis Beltran

00:30 - 01:00 PST | **Aloha .NET MAUI Community Toolkit** | Gerald Versluis

14:00 - 14:30 PST | **Building Accessible Apps with .NET MAUI** | Rachel Kang (SHE/HER)

Thank You!

Let's build amazing apps with .NET 7
